IADC MEMBERSHIP DIRECTORY

Join the leaders of the global drilling industry by advertising in the IADC Membership Directory

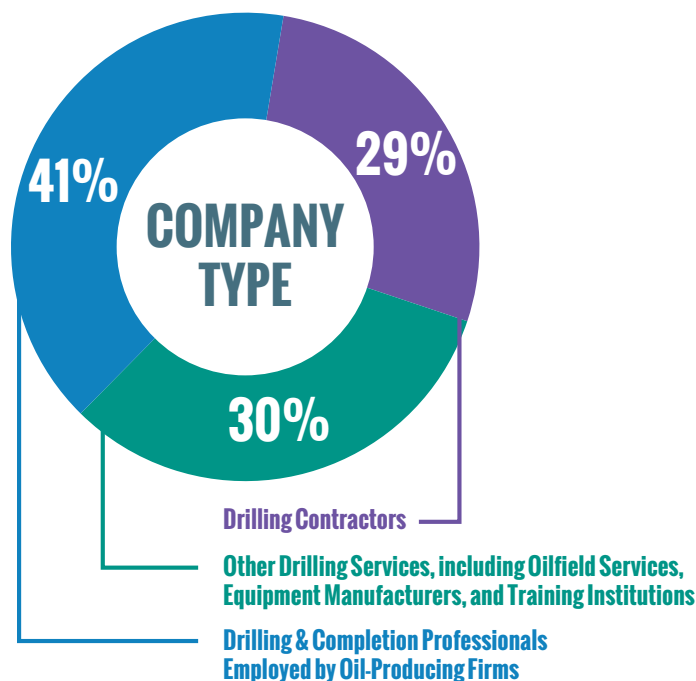

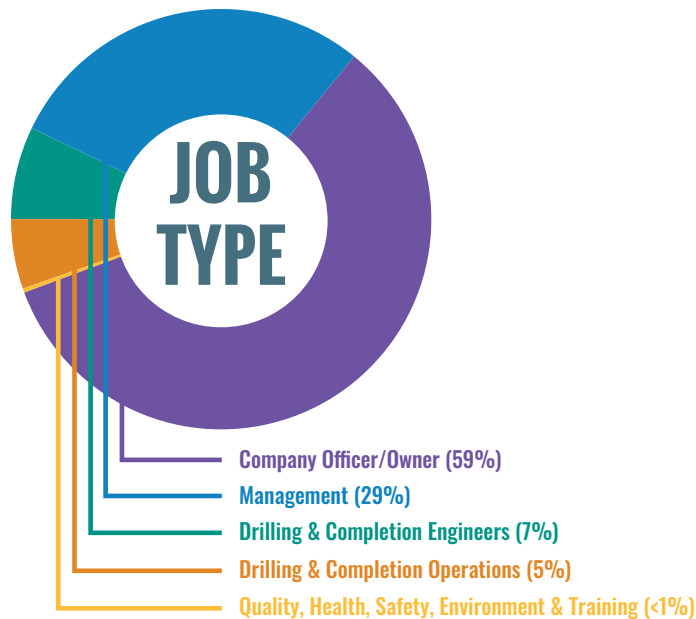

MISSION: The 2025 IADC Membership Directory is the definitive guide to the global drilling industry and your opportunity to connect with the key decision makers within the global wellsite industry. A whopping 88% of the IADC Membership Directory circulation goes to Company Officers/Owners (59%) and Management (29%).

READERSHIP: IADC is the only industry trade association with international scope among drilling contractors, oil companies and service firms alike. Accordingly, the 2025 IADC Membership Directory is an indispensable global reference of key operators, contractors, drilling rigs, suppliers and services.

The IADC Membership Directory puts your marketing message in the hands of over 2,500 drilling and producing executives. If you do business with the worldwide rig fleet, the 2025 IADC Membership Directory is an outstanding advertising value. It is also an excellent way to highlight your company's support for IADC's initiatives in next-generation workforce development, government affairs, HSE, well control, technology and more.

Get up close and personal with prospective clients

DC virtual panel discussions are one of the greatest values available to drilling and completion marketers. These high-interest webcasts feature expert panelists discussing the critical issues confronting the well-construction industry. Each of the pre-recorded VPDs will span 30 minutes to an hour. Virtual panel discussions are archived on DrillingContractor.org.

DC VPDs differ from typical webinars because they blend video, shot either in DC's in-house studio or online via Zoom, with PowerPoint and additional videos or animations.

Each VPD is promoted multiple times through combinations of DC, eNews and dedicated promotions, reaching more than 50,000 drilling and completion professionals. All promotions for the VPD, whether print or electronic, will feature the sponsor logo. In addition, the sponsor will be thanked at the start and finish of the VPD and the sponsor logo displayed on the video. Sponsors will receive names and e-mails of all VPD registrants.

Our virtual panel discussions provide significant value, as the table at right shows.

All DC virtual panel discussions must be deemed as value adding to readers and viewers. Excessive commerciality discourages viewers and diminishes credibility.

Defining the Drilling Space

Don't miss out on this opportunity to build your brand among the next generation of industry leaders and employees! The **IADC Lexicon** is a glossary of oilfield drilling terms that are defined in legislation, regulations, standards and/or guidelines. Over the past year, the website has logged over 85,000 ad impressions per month. Impressively, data analytics show that the **Lexicon** topped out at over 1,140,000 ad impressions over the entire year. The **IADC Lexicon** is a prime opportunity for marketers in the drilling industry.

WHAT DO ADVERTISERS GET? Advertise with a leaderboard on the homepage and a powerful leaderboard/poster ad combo site-wide on every inside page. Your ad will be featured on every definition page throughout the site—that's over 10,600 terms. Ads will rotate with up to 4-6 other leaderboard or poster ads.

Reach the Drilling Rig with Your Marketing Message

Have a message you want to take straight to the rig? Marketing your company's products and services through IADC checklists and forms provides direct presence at the rig site and to rig-based operations personnel.

High-visibility advertising is available on the front and back covers and inside "flap" of these checklists and forms. "Flap" visibility is ensured by its function to separate pages so that notes will not bleed through to underlying pages. (See illustration on [page 17](#).)

IADC will place your company's advertisement in a press run for any of the indispensable rig forms and checklists listed on these two pages. **All rates below are net USD.**

IADC Daily Drilling Report

The IADC Daily Drilling Report is the primary data-collection form for the global drilling industry. Also called the "tour sheet," the DDR captures information related to the rig crew for payroll, as well as equipment, wellbore, bit and BHA.

Up to two ad spots are available on the front flap. ([See page 17](#).)

IADC Drilling Rig Safety Inspection Checklist

This definitive checklist for rig safety inspections is indispensable at the rig site as a comprehensive guide to key hazards. Printed on carbonless paper to provide

multiple records. Adverts available on the back cover, and on both the front and back flap. The flap stands out due to its function in separating pages to avoid overwriting future pages.
